

Human Unitec International Inc.

www.hmnuusa.com

Company profile

HUMAN UNITEC INTERNATIONAL is operating since 2002 with a support of experienced managements that permitted to the Company to make investments in solid real estate and emerging growing activities.

Human Unitec International Inc. is a 2002 publicly held Nevada Corporation listed on NASDAQ OTC Markets whit the symbol HMNU.

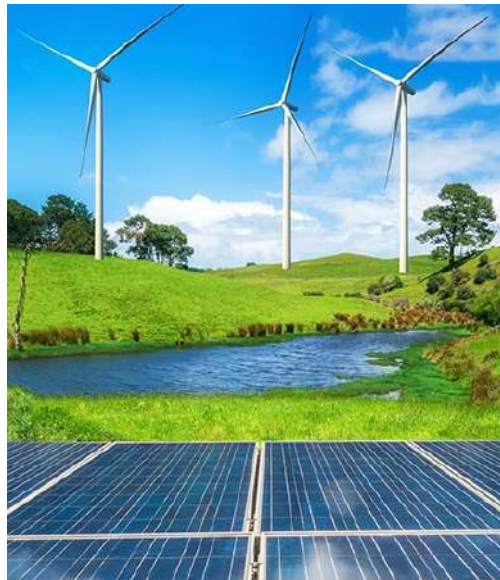

In 2019/2020 **Human Unitec International Inc.** and its investors Group entered into a number of diversified investments and is leader in Medical & Wellness and Green Energy industries.

This decision of diversified investment was based on the acquisition of activities in cooperation and joint venture with the founders and operating management of the new ventures.

HMNU is a leader on the Green Energy Industry as builder of a 20 tons tires and or plastic recycling plat, unique for technology and price on the global market. On November 25 the Company delivered the first innovative 20 Tons plant to Sedda Green Energy srl in Porto Torres, Italy.

HMNU is a leader on the medical industry for its MSK Kinesis Technology and protocols for pain management therapies. The therapies and the protocols are been adopted as Parkinson remedies and are important for the privation of blood clot and thrombosis.

HMNU is introducing in USA and Canada the MSK Kinesis Equipments and Protocols for therapies for pain management in cooperation with REYOU, a Swiss global leader of Stems Cells research and applications.

HMNU has and will continue to build its activities focusing on innovative technologies and growing emerging companies of medical and green energy industries.

The first strategy of the investment is based on acquisitions where the founders and the operating management and specialized operators continue to operate in participation with **HMNU teams**, in order to develop the activities with secure and solid experience.

SSCB proud of what we do, how we do it and especially of our identity. We strive today to improve people's health tomorrow

The Company

RE-YOU SUISSE SA

RE-YOU SUISSE deals with regenerative medicine, a branch of medicine that aims to repair damaged tissue through cell regeneration and not replacement. It is based on the use of autologous cells and tissues, capable of locally recreating the best conditions for tissue self-regeneration, a natural and spontaneous process that our body, when helped, is able to perform. It is a completely new concept, which we could define as regenerative medicine 2.0.

The know-how of **RE-YOU SUISSE** allows the creation of regenerative medicine treatment centers based on the use of autologous cells, aesthetic medicine and plastic surgery, orthopedics, cosmetics and nutrition.

The Company

Green Energy

HMNU TECHNOLOGY

On June 2016, Human Unitec completed the acquisition of the GRONE TECHNOLOGY and started to build HMNU Technology is a versatile waste sorting center that acts not only as a recycling center, but also a power plant aimed at eliminating the need for landfills.

The modern land fill is a gross use of space and increasingly becoming a threat to the environment.

The primary purpose of the technology is to sort Municipal Solid Waste (metals, glass, plastic, textiles, paper, bulky, waste).

SEDDA GREEN ENERGY SRL

On November 25, 2020 the Company delivered the first 10 tons plant for recycling of used tires or plastic to the consociate Sedda Green Energy, Porto Torres, Italy. HMNU on 50% of Sedda Green Energy Srl.

ENERGY SELCO A.S.R.L.

On March 2017 HMNU acquired 100% of INDUSTRY ENERGY SELCO (SELCO) including but not limited to its assets and patents of a 274MW system. The investment consists of land with 73 wind towers under construction. transaction value: \$ 5.2 million
